

Connor D. Wotkowicz

Full Stack Developer | JavaScript • Node.js • React • PostgreSQL

New York, NY | 413-281-9699 | wotkowicz@gmail.com | linkedin.com/in/wotkowicz | connorwotkowicz.com | github.com/connorwotkowicz

NYC-based full-stack developer with a strong foundation in JavaScript, Node.js, and modern frontend/backend frameworks. Combines clean UI design with backend logic and a collaborative team workflow. Experienced using GitHub Projects, Jira, and modern dev tools like Copilot and Gemini to work efficiently and responsively.

SKILLS

Languages & Frameworks

JavaScript (ES6+), TypeScript, Node.js, Express.js, HTML5, CSS3, SQL, Next.js, React

Frontend Development

React (Hooks, Context API, React Router DOM), Next.js, Sass/SCSS Modules, Axios, UI/UX Design, Responsive Design, Vercel

Backend & Database

PostgreSQL, Supabase, Railway, RESTful APIs, Prisma, MongoDB, JWT Auth, Stripe API, CRUD logic

Tools & Workflow

VSCode, Git & GitHub, GitHub Projects, Jira, npm, ESLint, Prettier, Postman, Chrome DevTools, Unit Testing, Modular Architecture

Design & Creative Tools:

Figma, Blender, Ableton Live, Pro Tools, OBS Studio

TRANSFERABLE CREATIVE-TECHNICAL SKILLS

Blending a background in music composition/production, digital art, and media creation with software development, I bring a unique mix of artistic creativity and technical precision to coding, design, and problem-solving.

Creative Problem Solving — Applies composition background to craft user-focused solutions.

Technical Fluency — Proficient in DAWs and modern dev environments (React, Git, VSCode).

Detail-Oriented — Audio editing sharpened precision applied in clean coding.

Structured Thinking — Orchestration skills support precise, modular, and scalable software architecture.

Adaptable & Iterative — Quickly learns and integrates new tools and workflows.

PROJECTS

DiscogApp — Full-Stack Vinyl Marketplace

<https://discog-mv-producer.vercel.app> | <https://github.com/connorwotkowicz/DiscogApp>

- Spearheaded UI/UX across all pages, drawing from Apple-style design systems and accessibility practices.
- Built a responsive React component architecture with SCSS Modules and smooth Anime.js animations.
- Implemented advanced product filtering along with Admin Dashboard for user controls and permission management.
- Created secure Node.js/Express backend with JWT auth, role-based access, and real-time cart management.
- Implemented Stripe checkout supporting guest and logged-in users, with persistent cart state and notifications.
- Collaborated using Jira, GitHub, and Agile workflows to ensure quality and team coordination.
- **Stack:** React, Node.js, Express, PostgreSQL (Railway), JWT, Stripe, SCSS Modules, Vercel, Helmet, Anime.js

CueSketch — Visual Sketchpad for Composers (*In Progress*)

<https://cuesketch.vercel.app>

- Developing DAW-inspired interactive sketchpad designed specifically for orchestral composers and arrangers.
- Enables importing and precisely positioning reference or original audio tracks within a timeline interface.
- Allows users to add detailed cues and annotations below the timeline to guide complex composition and orchestration processes.
- Facilitates visualization and planning of multi-layered musical ideas with real-time updates.
- Built with a modern full-stack architecture: Next.js App Router and TypeScript on the frontend, Express.js backend with JWT-based authentication.
- Utilizes Supabase for storage and management of media assets and project data at present.
- Features autosave functionality to safeguard creative work against data loss.
- Showcases a polished UI enhanced by smooth, dynamic animations using Anime.js.
- **Stack:** TypeScript, Next.js, React, Node.js, Express, PostgreSQL (Supabase), JWT, SCSS Modules, Wavesurfer.js, Anime.js, Vercel

EXPERIENCE

Music Producer & Digital Designer

Freelance | Remote | Jan 2020 - Jan 2022

- Managed end-to-end creative projects, from initial concept through final delivery, utilizing industry-standard tools (FL Studio, Ableton, and Pro Tools).
- Designed and built digital assets focused on strong user experience, working closely with clients to nail down the look and feel.
- Ran multi-channel campaigns on social media and other platforms, keeping an eye on what worked and tweaking content to get better results.
- Managed live production setups, troubleshooting on the fly to keep everything running smoothly.
- Focused on making designs easy to use and accessible, paying attention to how information is organized and presented.
- Stayed flexible and learned new tools quickly to meet deadlines and adapt to changing project needs.

EDUCATION

Fullstack Academy Web Development Bootcamp

Software Engineering Certificate | Oct 2024 – May 2025

Immersive program focused on full stack JavaScript, modern web architecture, and real-world, collaborative project development.

University of Massachusetts, Amherst, MA

Bachelor of Arts – Language & Culture | Jan 2015 – Dec 2018

LANGUAGES (*Common European Framework of Reference — CEFR*)

English: Native

French: C2

- Fully fluent in social and professional settings

German: B2

- Expressively fluent; comfortable with conversation and reading

Spanish: A2

- Basic conversational skills and understanding
