

Connor D. Wotkowicz

Full Stack Developer | React • Node.js • PostgreSQL

413-281-9699 | wotkowicz@gmail.com | New York, NY | [linkedin.com/in/wotkowicz](https://www.linkedin.com/in/wotkowicz) | github.com/connorwotkowicz

Full-stack developer blending technical skill with a creative edge from music, audio, and digital design. Fast, clean, and user-focused across React, Node, and PostgreSQL. Experienced in UI polish, backend logic, and full product delivery.

TECHNICAL SKILLS

Languages & Frameworks

JavaScript (ES6+), TypeScript, HTML5, CSS3, Go, Python, SQL, Node.js, Express.js, Next.js, React, Ubuntu/Linux

Frontend Development

React (Hooks, Context API, React Router), Next.js App Router, Sass/SCSS Modules, Axios, UI/UX Design, Responsive Design, WCAG/ARIA Accessibility, Vercel Deployment

Backend & Database

Express.js, PostgreSQL, Supabase, RESTful APIs, JWT Authentication, CRUD Operations, File I/O, JSON Serialization, CLI App Architecture

Tools

Git & GitHub, npm, ESLint, Prettier, Postman, ngrok, Chrome DevTools, CI/CD Pipelines, Unit Testing, Modular Architecture, Go CLI Tools

Design & Creative Tools:

Blender (3D Modeling), Adobe Creative Suite, FL Studio, Ableton Live, Pro Tools, OBS Studio, Streamlabs, Figma

TRANSFERABLE CREATIVE-TECHNICAL SKILLS

Blending a background in music composition/production, digital art, and media creation with software development, I bring a unique mix of artistic creativity and technical precision to coding, design, and problem-solving.

Creative Problem Solving — Background in composition enables innovative, user-focused approaches to development.

Technical Fluency — Proficient with DAWs like Ableton and FL Studio; easily adapted to IDEs, version control (Git), and frameworks like React.

Detail-Oriented — Audio editing sharpened precision, now applied to clean, efficient code.

Structured Thinking — Background in composition and orchestration supports building modular, scalable code with logical architecture.

Adaptable & Iterative — Quickly learns and integrates new tools, frameworks, and workflows.

TECHNICAL PROJECTS

DiscogApp • <https://discog-mv-producer.vercel.app> | May 2025
<https://github.com/2410-Capstone/DiscogMVP>

- Collaborated with a five-person team of mixed experience levels to deliver a full-stack vinyl marketplace under a fixed timeline.
- Led UI/UX planning sessions and established GitHub workflows to streamline async contributions and reduce merge conflicts.
- Architected and built the entire frontend, inspired by Apple's design standards, with full accessibility support (ARIA, keyboard nav).
- Developed a responsive component system in React with SCSS Modules, while integrating a secure Node/Express backend with JWT auth, dynamic filtering, and Stripe-powered checkout.
- **Stack:** React, Node.js, Express, PostgreSQL, JWT, Stripe, SCSS Modules

EXPERIENCE

Music Producer & Digital Designer | Self-Employed | Remote

Jan 2020 - Jan 2022

- **Owned full creative lifecycle:** conceptualized, iterated, and delivered complex digital assets under tight deadlines (FL Studio, Ableton, Pro Tools).
- **Built high-impact user experiences** by designing and prototyping assets (Blender).
- **Launched multi-channel product campaigns**, analyzed engagement metrics across five platforms, iterated content strategy.
- **Led real-time production workflows**, troubleshooting complex streams in live environments.
- **Practiced user-centered design:** applied visual hierarchy, accessibility considerations, and storytelling techniques to craft intuitive experiences.

EDUCATION

Fullstack Academy Web Development Bootcamp

Software Engineering Certificate | Oct 2024 – May 2025

Immersive program focused on full stack JavaScript, modern web architecture, and collaborative project development.

University of Massachusetts, Amherst, MA

Bachelor of Arts – Language & Culture | Jan 2015 – Dec 2018
